

ACS/Uni-Fab Power Products

ADJUSTABLE 1 GANG MUD RING

FEATURES:

Allows the device to be leveled with the finish wall during trim-out.

Reduces the need for multiple ring depths for wall thickness.

Expandable from 5/8" to 1".

For one gang applications, utilizing 4" Square box.

Made from durable .062" thick galvanized steel.

APPLICATION:

Adjustable mud ring is to be used in finish wall (i.e. Sheetrock, tile, etc..) applications to mount single gang devices.
